## Key Definitions

**Aid worker:** An individual employed by or attached to a humanitarian, UN, international, national, or government aid agency.

**Killed:** Refers to a staff member being killed. Aid worker(s) killed while in captivity are coded as 'kidnapped'.

**Kidnapped:** Refers to a staff member being kidnapped, missing or taken hostage.

**Arrested:** Refers to a staff member being arrested, charged, detained, fined or imprisoned. The classification is based on reported but not independently verified information. The Aid in Danger project makes no independent judgement about the legality of any reported arrest or detention.

## KKA Data

We monitor local, national and international news outlets and online databases for threats facing people living and working in dangerous environments. Each month we release the latest available data on aid workers killed, kidnapped and arrested. The data is continually updated and includes new and historic reports identified in open-sources and verified security incidents submitted by Aid in Danger partner agencies. The dataset and quick charts can be accessed via [HDX Insecurity Insight](#). Data collection is ongoing, and data may change as more information is made available. Where the number of aid workers affected is unspecified, one is counted. The countries above have been selected by [Reliefweb](#).

## Notes

**This document is part of the Aid in Danger project.** It is published by Insecurity Insight and funded and supported by the Department for International Development (DFID) of the UK government through the RIAH project at the Humanitarian and Conflict Response Institute at Manchester University, UK. The incidents reported are not a complete nor a representative list of all events that affected the provision of aid delivery and have not been independently verified. All decisions made, on the basis of, or with consideration to, such information remains the responsibility of their respective organisations.

<sup>1</sup> The AWSD database does not include the names of individual victims or the agencies affected by an incident. This is done in consideration of the victims and their families who may not wish to have the names publicised in this format and to afford equal respect to the many victims for whom this information is not available.
