

## New: Managing Security Incidents: 10-min mobile guide now available in Polish, Russian and Ukrainian

### This guide

- Explains why incident monitoring is an important part of any aid agency's internal security risk management strategy and how to do it.
- In [Polish](#), [Russian](#) and [Ukrainian](#) and designed for local partner organisations who want to improve their security risk practices as part of their due diligence capacity building.
- Is also available in [Arabic](#), [English](#) and [French](#) for partner agencies in other countries.
- Is a short introduction to more material available on our [English](#), [French](#), [Spanish](#) and [Arabic](#) SIIM roadmap.
- Read the content of the mobile guide [here](#).

### Reviews

The guide received a rating of 4.7 out of 5 from English language DisasterReady users.

- *A well organised, detailed and complete presentation. Definitely a must read!*
- *The information provided was easy to understand and helped in clearing out many terminologies used in safety environment.*
- *The guide is informative to structure the incident report and follow up later. It's pretty handy. I will raise the issue of An Incident Database System Procurement in my country office. Thanks.*

## New: Reporting Security Incidents: 10-min mobile guide now available in Polish, Russian and Ukrainian

### This guide

- Explains to employees and consultants why it is important to report security incidents to security risk managers and how such reporting is best done.
- Is designed for local and field staff and is now also available in [Polish](#), [Russian](#) and [Ukrainian](#) - in addition to [Arabic](#), [English](#) and [French](#).
- Can be used as a tool in staff training to support a constructive and trusted security risk management atmosphere between security risk managers and staff.
- Comes with a documentation confirming completion of the 10 minutes course.
- Read the content of the mobile guide [here](#).

### Reviews

The guide received a rating of 4.7 out of 5 from English language DisasterReady users.

- *Great, quick and intuitive.*
- *This course was very important, it gives you guidelines into how to report and incident and the various means to go by it*
- *Very effective training.*

**This Bi-Monthly News Brief comprises threats and incidents of violence affecting the delivery of humanitarian assistance.** It is part of the Aid in Danger project, by Insecurity Insight. It is prepared from information available in local, national and international news outlets and online databases. The incidents reported are not a complete nor a representative list of all events that affected the provision of aid delivery and have not been independently verified. All decisions made, on the basis of, or with consideration to, such information remains the responsibility of their respective organisations. Insecurity Insight continues to update data on aid workers killed, injured, kidnapped or arrested (KIKA) and figures may change. Updated data includes new and historic reports identified in open-sources and verified security incidents submitted by Aid in Danger partner agencies.
