

Attacks on Health Care in Sudan

07-20 February 2024

Insecurity insight identified at least 279 attacks on Sudan's health care system since fighting started between the Rapid Support Forces (RSF) and Sudan Armed Forces (SAF) on 15 April 2023 and 06 February 2024. At least 56 health workers have been killed, 30 kidnapped and 63 injured. In addition, health facilities have been damaged at least 62 times. Explore this [interactive map](#) to see where incidents happened. Access the data on [HDX](#). Numbers may change if or when further information is made available.

Documented incidents

The number of recorded incidents during the reporting period (07 to 20 February 2024) is lower than in previous periods. This is likely due to the ongoing country-wide telecommunications and internet blackouts disrupting information flow. Areas in Darfur and Kordofan have been experiencing months-long blackouts, forcing people to use the Starlink satellite communication network at high prices. New reports may emerge in the coming months.

19 February 2024: In Nyala city, South Darfur state, the dialysis centre is at risk of closure due to the lack of medical supplies. **Source:** [Personal Communication](#)

20 February 2024: In Ed Daein city, East Darfur state, a hospital, Neem IDP Camp and two water stations were damaged when the SAF reportedly dropped barrel bombs on the area. **Source:** [Dabanga Sudan](#)

This document comprises threats and violence as well as protests and other events affecting the delivery of and access to health care. It is part of the [Attacks on Health Care](#) project by [Insecurity Insight](#). It is prepared from information available in local, national and international news outlets and online databases. The incidents reported are not a complete nor a representative list of all events that affected the provision of health care and have not been independently verified. All decisions made, on the basis of, or with consideration to, such information remains the responsibility of their respective organisations. This report is funded and supported by the Foreign, Commonwealth and Development Office (FCDO) of the UK government through the RIAH project at the Humanitarian and Conflict Response Institute at the University of Manchester, by the generous support of the American people through the United States Agency for International Development (USAID) and by the Tides Foundation. The opinions expressed in it do not reflect in any way the position of the UK government, USAID, the U.S. Government or the Tides Foundation who are not responsible for the content expressed in this document.
