

Attacks on Health Care in Lebanon

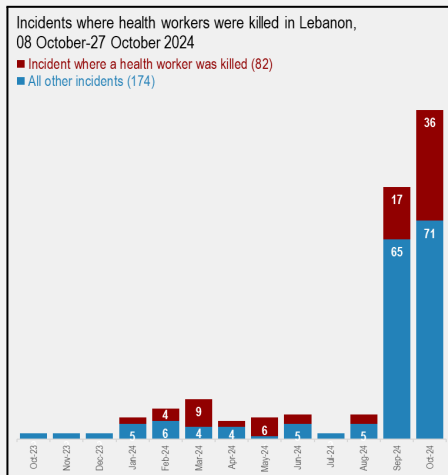

30 October-12 November 2024

Insecurity Insight identified 256 incidents of violence against or obstruction of health care in Lebanon between 08 October 2023 and 27 October 2024.

At least 174 health workers were killed in 82 incidents. All of these reported 82 incidents involved the Israeli Defense Forces (IDF) using explosive weapons, including drone and plane strikes, artillery and shelling, as well as IEDs placed inside communication devices, killing health workers, including ambulance drivers, doctors, nurses and paramedics. Of the 174 health workers killed, 105 were killed while working inside health facilities that were bombed by Israeli forces. At least 12 health workers were killed in “double-tap” attacks while responding to victims of previous Israeli bombings.
