

Attacks on Health Care in Lebanon

11-24 December 2024

Insecurity Insight identified 507 incidents of violence against or obstruction of health care in Lebanon between 08 October 2023 and 03 December 2024. In these incidents, at least 415 health workers were killed, 426 injured and health facilities damaged at least 208 times. All of these reported 507 incidents were attributed to the Israeli Defense Forces (IDF). Attacks on health care were documented in six of Lebanon's nine governorates with high numbers recorded in Lebanon's southern Nabatieh governorate, particularly in Bint Jbeil, Marjayoun and Nabatieh districts and South governorate's Tyre district. Explore the incidents on our [interactive map](#)¹. Access this data on [HDX](#). The dataset no longer includes event descriptions or geo-coordinates due to [HDX policy](#). Data is updated every Monday. Numbers may change if or when further information is made available.

Documented incidents

No incidents identified during the reporting period.

This document comprises threats and violence as well as protests and other events affecting the delivery of and access to health care. It is part of the **Attacks on Health Care** project by **Insecurity Insight**. It is prepared from information available in local, national and international news outlets and online databases. The incidents reported are not a complete nor a representative list of all events that affected the provision of health care and have not been independently verified. All decisions made, on the basis of, or with consideration to, such information remains the responsibility of their respective organisations. This report is funded and supported by the generous support of the American people through the United States Agency for International Development (USAID). The opinions expressed in it do not reflect in any way the position of the U.S. Government or USAID who are not responsible for the content expressed in this document.
